

IAC Acoustics Introduces IAC Virtual

Cloud Based Software tool for HVAC Products

N. Aurora – February 21, 2017 – [IAC Acoustics](#), a division of [Sound Seal](#), and a leading manufacturer of metal acoustical and noise control products and solutions serving the industrial, commercial, architectural, and construction industries, is pleased to introduce IAC Virtual. IAC virtual is a cloud-based sales and engineering tool for our HVAC Silencer products. This tool simplifies quoting for reps by identifying compatible products through modest customer input. It is a robust software with automatic calculation of product performance built in based on user identified operating conditions.

IAC Virtual provides valuable information to reps as well as acoustical consultants and engineers.

- Quick select menu for prompt processing of product selections
- Takes quoting process from inception to completion
- Flexibility to compare IAC products with known alternatives
- Customizable options and Expedited Results
- Save and re-visit multiple projects
- Compatible with smartphone and tablet devices

“We are very excited to offer this impressive tool to the acoustic community” said Jennifer Chagnon, Marketing Director for Sound Seal. “IAC Acoustics prides itself on being a leader in innovation and customer support. The IAC Virtual tool takes us to the next level in providing fast and effective product information and solutions.”
